

QUATRO

Quatro

The space-saving staircase with the distinctive design

The QUATRO space-saving staircase is characterized by a particularly innovative design, with extra strong step elements and a solid beech wood handrail.

The staircase kit is delivered as standard in a straight version in the colors silver or black and in solid beech wood, finger-jointed or walnut (beech stained on walnut).

A platform which makes the stair to a $\frac{1}{4}$ winded staircase is offered as an optional item. The remarkable thing about this $\frac{1}{4}$ winded version is that the platform can optionally be installed from the first to the last step, which results in many assembly variations.

All metal parts are high-quality powder-coated, the wooden steps and the wooden handrail are high-quality lacquered.

The staircase kit is supplied complete for quick and easy self-assembly for a maximum room height of 3,210 mm (13 steps / 14 rises). The rise of the stairs can be set variably from 190 mm to 230 mm per step.

For a room height up to 3,440 mm an optional height extension element / additional step is offered.

Technical Specification

basic data	basic size	1.675 x 650 mm
	staircase width	650 mm
	floor to floor height	3.210 mm (13 steps / 14 rises)
	floor to floor height with extension	3.440 mm (14 steps / 15 rises)
	available colours	silver and black
	available wood species	beech and beech walnut stained
treads	N° of treads	13
	adjustable rise	190 - 230 mm
	passage width	600
	tread depth	210 mm
	material of steps	beech
	finishing	varnished
	thickness	35 mm
support elements	material of support elements	steel
	thicknes of material	3 mm
	dimension of support elements	100 x 60 mm
	finishing of support elements	powder coated silver or black
banister	material of handrail	massive beech
	diameter of handrail	40 mm
	banister hight	900 mm
	number of railing bars	6
	material of railing bars	steel
	finishing of railing bars	powder coated silver or black
	colour of plastic parts	silver or black

Product Packing / Palletising / Truck Loading

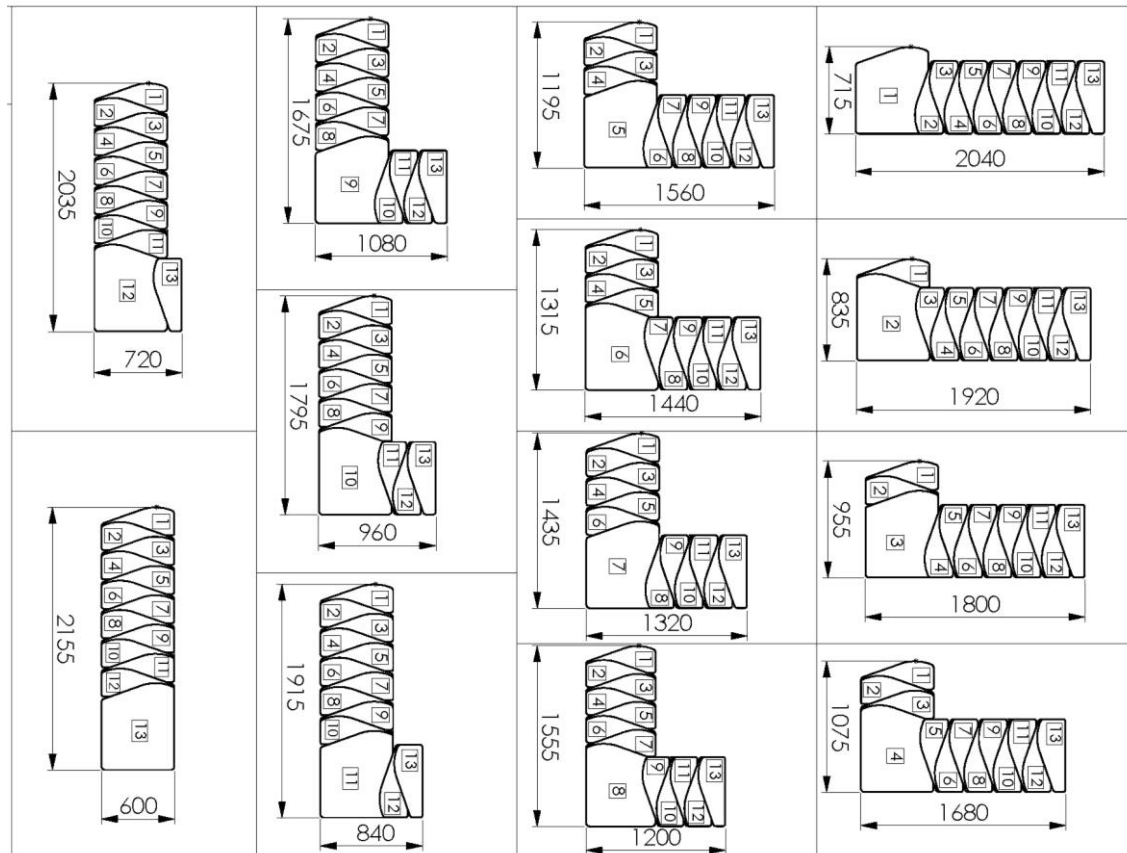

outer packaging	OSB box
packing size (mm)	1200 / 800 / 500
weight / piece	140 kg
stacking of products	4 pcs are stacked and stripped
pallet weight	560 kg
size of stacked products (mm)	1.200 / 800 / 2.000
full truck loading (pcs)	132
full truck loading (stacks)	33
total weight	18.480 kg
